## **History**

Visconti has taken inspiration from a famous painter of the XVII century: Rembrandt Harmenszoon van Rijn, better known as Rembrandt.

He was a master like anybody before in representing the fusion between earthly and spiritual life. He was able to transfer this vision on his paintings with a masterful use of the colors; the so called "Chiaro e Scuro technique".

Its technique has been interpreted from Visconti by carefully selecting beautiful colorful resins with brushes of colors that make every pen unique, like only a real masterpiece could be.

## **Note**

The Rembrandt has a unique magnetic closing system which makes it very easy to open and close; differently from the normal "snap" system it does not become loose with the time being.

It is enriched with a dedicated metal ring decorated.

On the cap the famous My Pen System, allowing to each regular pen of Visconti to be personalized. The clip is unique to Visconti and reveals the origin of the brand as it takes inspiration from the Ponte Vecchio (Old Bridge) in Florence.

Shape and dimensions make it the perfect collection to be used every day.

It has been thought for young generations of writers, who want their sign to become a distinctive symbol, that want to live a mark in their own history.

On 2017 Visconti has introduced four new colors inspired from the new fashion trends: metallic pearl grey, purple, back to black, marble white.
