

<i>Segment:</i>	Diver
<i>Line nr:</i>	55
<i>Line name</i>	Pro Dive 3000
<i>Version:</i>	Camo Urban
<i>Material:</i>	St. Steel
<i>Ltd:</i>	29 pcs
<i>code:</i>	
KW55-01	Navy Inox Grey Paint/Blue Dial
KW55-02	Desert inox Sand Paint/Light Brown Dial
KW55-03	Jungle Inox Green Paint/Green Dial

History

"*God is in the details*": the quotation goes to the architect Ludwig Mies van der Rohe, meaning that the innovation and care of a project must be evident even at the lower levels of the work realized.

The novelty of the structure and design of the Visconti Pro-Dive 3000 models deserves a deviation from the usual patterns in watch-making (a monobloc case, a rotating bezel fixed by means of screwed lugs attached to the case, the gear rack and the outer bezel rotation system and the Pro-Dive special patented bayonet fitted crown).

The ProDive 3000 Camo wishes to underline technology and shapes not by contrasts of material and volume, but by means of de-tone in three colored variants, coordinated with the camouflage pattern of the dials. The ProDive 3000 Camo model is made in three color variants.

Here the coloring of the case with a special military paint coating, coordinated with the camouflage pattern of the quadrangles, is to highlight the aggressively technological shape of the watch.

Note

Each watch is first subjected to a painting cycle carried out by the same company (and with the same materials and technologies) which colors guns for Italian Army, according to the different military theaters (snow, urban, desert, jungle etc.).

After the above Visconti operates an ageing process that accentuates the one due to normal usage wear, in order to stabilize the watch and to create an absolutely individual vintage effect.

Technical Features

<i>Movement</i>	Swiss Made Automatic movement 28.800 A/h; adjusted to 4 positions, average rate 0 +15 sec./day. Soignée finish, power reserve: approx. 42 hours, self-winding mass with engraved Visconti logo. Dimensions: Ø 25.60 mm. Thickness 3.60 mm. Soprod SOP A10-2 , 25 jewels, MHVJ assortment, Glucydur balance.
<i>Functions</i>	TO: HH, MM, sweep seconds. date window at 2 o'clock.
<i>Case</i>	Stainless steel AISI316 monobloc case, micro-shot blasted and satin-finished; bayonet-mounted crown at 2 o'clock with patented system for unlocking from movement. Four AISI316 lugs, satin-finished. 5.00 mm thick, flat-convex sapphire watch glass, rotating AISI316 bezel with engraved time scale and micro-dot in luminescent material at 0 o'clock, with external aluminium bronze saw tooth and sliding rotation bloc at 4 o'clock. Automatic helium escape valve at 6 o'clock.
<i>Dimensions</i>	Diameter 45.00 mm Thickness 17.80 mm Overall dimensions at crown 54.40 mm Height 57.90 mm
<i>Waterproof to</i>	300 ATM
<i>Dial</i>	Matt dial with white and colored detailing, luminescent indexes and roman numeral at 12, minutes scale with bars. Day & date display to show 7 days with current day pointer.
<i>Hands</i>	Hands to an exclusive Visconti design: hours, minutes, sweep seconds hand with triangle. Luminescent coating.
<i>Strap/Bracelet</i>	In water-resistant leather. Visconti satin-finish stainless steel buckle. 24/22 mm.
