History

Italian people always loved competition and motor race; so many people are passionate about racing with cars, motorbikes, boats.

Italy is not only Ferrari's country, but also is the mother place of Alfa Romeo, Lamborghini, Maserati, Ducati, Aprilia, etc.

So many good pilot of Cars, Motorbikes, Boats

The Visconti collection TWO SQUARED Chrono is for people who love motors, races and their world, technological and design challenges as well as they are sport passionate.

Note

Visconti TWO SQUARED chronograph, in addition to use one of the most distinctive shapes created in almost thirty years of history by this Florentine company (squaring the circle, synthesis of square and circle), shows an innovative multilevel skeleton dial that allows vision of much of the *luxe* finish movement.

Its construction highlights the presence of two steel disks, cut directly from Visconti with a vanguard technique, instead of traditional Small Seconds and Minutes Counter hands.

Technical Features
