KW23-13	Inox/ Dark Blue Dial

## **History**

Visconti Designers have been taking inspiration by one of the many great assets of Italy: Music and Opera.

In Italy, there have been and still there are so many Musicians, Composer, Tenors, in past times as well as in the present ones: Verdi, Puccini, Caruso, Pavarotti, Bocelli.

So many theatres and passionate people for Opera.

It has been natural to celebrate this passion with a special watch, which is also technical challenge, yearning for the same breath taking and amazing experience of a La Scala (Milan) Theatre premiere.

## **Note**

Opera Watch has a very special dial, which is multilayer: top dial is hanged up the ground level with a couple of harms.

Visconti has been able to join technical complexity of the watch, with beautiful design, keeping itself faithful to its Italian Design DNA and being able to offer an important watch at a very competitive price.

## Technical Features
